

The Emberwild Grounds

A merchant village, garden vows and gatherings beneath the sky

Concept illustrations show intended atmosphere. They are not photographs of completed facilities or construction drawings. Final layouts and availability will be confirmed before opening.

An open-air realm, built one chapter at a time

The Emberwild Grounds is planned near Trenton, Missouri, with April 2028 as the target for the first ready, funded chapter. The grounds are in development and reservations are not open. A whole-site maximum of 100 people includes guests, children, owners, performers and other vendors.

Full-development concept, not an opening-day photograph. The scaled overhead preserves the planned footprints, ceremony seating and walking paths. This realistic illustration shows materials and atmosphere; it is not the scale drawing.

One full day. Your own celebration.

Option	Proposed 2028 fee	What it provides
12-hour grounds rental	\$1,650	Full yard, portable toilets/handwash, all tables/chairs; no per-person charge
Blanket linen access	\$500 extra	Access to all available event linens; ordinary cleaning included
Bride OR groom shed	\$175 extra	One preparation shed, after completion
Bride AND groom sheds	\$300 extra	Both preparation sheds, after completion

Every rental reserves one 12-hour window, including your vendor setup, event time and cleanup. Tables/chairs and basic owner starting setup/takedown are included. You arrange food, drinks, catering, coordination, entertainers, personal florals and during-event furniture moves. The venue does not provide event staff or food/beverage packages.

The entire available event yard and serviced portable toilet/handwash facilities are included in every rental. Merchant businesses and unselected locked rooms are separate from yard hire. The full pavilion, preparation buildings and amphitheater become available only after completion and written confirmation in your booking.

Furniture for the gathering you imagine

The planned pool includes 150 white folding chairs, 20 six-foot round tables, 10 six-foot rectangular tables and 10 narrow six-foot training tables, plus transport carts. Access to all available furniture is included. Having 150 chairs does not increase the 100-person site maximum. Final layouts set usable seating; additional simultaneous seating or furniture movement is your responsibility.

Linens with one simple access fee

For one flat \$500 add-on, receive access to all available venue linens held behind a separately locked door in the storage shed. No per-piece rental fee applies. Planned stock includes round and rectangular cloths, napkins and runners; available colors and quantities will be confirmed before booking. You may supply your own linens instead. Ordinary cleaning is included; loss/damage terms belong in the final agreement.

A merchant walk into the story

Eight matching 16-by 24-foot shops will flank a gravel walkway: four in the upper row and four in the lower row, with inward-facing high edges on their single-slope roofs. Warm timber, arched windows and lanterns tie the village together.

Upper row, west to east	Lower row, west to east
Emberglass Apothecary	The Ashen Quill
The Emberforge	The Kindling Commons
The Tinderbox	Emberhall Tavern
The Quartermasters Hearth	The Cinderstill

A planned greenhouse and apiary sit at the west end of the merchant walk. The Apothecary is the first planned merchant; the other shops are later phases. Browse its online collection previews while checkout is being prepared. Tavern/Cinderstill food and beverage service is a separate future shop offering, not part of your rental. Shop hours and event access will be confirmed as the village opens.

Comfort and practical support

Ten timber portable toilet cabins are arranged in two groups: seven beside the upper shop row and three beside the northeast support sheds, with handwashing nearby and an accessible facility planned within the group. The northeast has separate 16-by 24-foot groom, bride and storage sheds, in that order from west to east. The storage shed has a paved loading apron for the furniture carts and a separate locked linen room. Preparation-room access can be selected for one room or both once they are ready.

The measured grounds

This placement reference preserves the owner's Overview Layout PDF. North is at the top, with NW5 th Avenue west and US65 east. The parking plan has 50 gravel stalls, 25 in each row and a 24-foot center aisle. The reference is a design layout, not a land survey.

NW5 th Avenue is west; US65 is east. The normal public route from parking enters between the shops, through the merchant walk. Normally closed emergency/service gates provide additional escape and service access. Flower gardens, young Thuja screening and timber/wire fencing with 8-foot lantern posts frame the grounds.

Ceremony, reception and a fireside gathering

Silverleaf is a full roofed octagonal ceremony pavilion,24 feet across opposite sides, in the southeast. Four square flower-garden landscape areas flank the firepit and ceremony areas. North of it, Embermoon is a 60-by 100-foot open-sided pavilion over a concrete pad, with no fireplace. Its planning allocation is 1,200 sqft dining,400 dancing,300 catering and 4,100 circulation, flexible gathering space, gifts and entertainment. Most grounds remain grass beyond gravel paths, essential firm access, loading apron and pavilion pad.

Embersong is the planned firepit amphitheater for 100 seating positions. A small stage sits behind the firepit, so the audience faces the fire and performers together. Fires depend on weather, burn conditions and agreed supervision. Audience capacity remains subject to the whole-site limit, including performers and owners.

Stage	Planned chapter
1 · April 2028 target	Gravel parking, fence, trees, core flowers, ceremony, toilets/handwash, all furniture, storage and first Apothecary shed
2 · funding-dependent	Embermoon Pavilion structure and concrete pad
3 · funding-dependent	Remaining seven shops and separate bride/groom preparation sheds
4 · funding-dependent	Embersong amphitheater/stage, greenhouse, garden/courtyard finish and grid-tied solar

Later chapters have no confirmed dates. Prices are proposed 2028 offers before applicable taxes and final terms. Weather backup, postponement, vendor access, cleanup and key return will be agreed in writing. An open-sided pavilion is not an enclosed severe-weather shelter.
